How we met: at a design conference

#### CALLUM

Interests we share:

What we talk about: - design projects

- play tennis

- have lunch

Activities we do together:

- design - sports (soccer, tennis) - politics
- traveling

#### FOCUS ON WRITING Ex. 2, p. 15

I have a lot of friends, but I have only a few friends who I feel very close with. (My best friend) (is Callum.)Callum and I met three years ago, at a design conference. We started talking about a presentation which we both liked. Then we found out that we have a lot of the same interests in our personal lives. Both of us like sports, especially soccer and tennis. We also both like traveling. Callum has been to some really interesting places, like Nepal and South Africa!

As designers, Callum and I both have very busy lives, but we always make time to see each other. We play tennis together almost every weekend. Afterwards, we have lunch and talk about a lot of different things. We often talk about projects we are working on. Sometimes it's nice to get an outside opinion! We also discuss politics. We don't always agree with each other, but Callum always has interesting points to make. I like that he introduces new ideas to me.

It's not every day you find someone that you get along with so well. I really enjoy spending time with Callum.

Listening

6

#### BEFORE YOU WRITE Ex. 1C, p. 38

#### Argument: Listening

Supporting Argument 2: succeed

Supporting Argument 1, Reason: more open to you

Supporting Argument 1, Reason: solutions

Supporting Argument 2, Reason: new or

different ideas

Supporting Argument 2, Reason: a better way

#### FOCUS ON WRITING Ex 2, p. 39

Listening is especially important when you disagree with people. If you want to solve the disagreement, you first have to listen and understand how they are feeling. Are they frustrated, angry, disappointed? If they feel like you are trying to understand them, they will be more open to you. Also, if you understand how they are feeling, it's easier to come up with solutions that you can both agree on.

Listening is also important because it can help you succeed at work. The most successful business leaders are good listerners. They are always paying attention to what others are saying so that they can hear new or different ideas Listening to new ideas like this can help you think of a better way to do something.

Feature	Summary	+ or -	Why?
	ordinary woman,	-	exciting
	Carla's past		
Actor	star	+	realistic
	second	-	disappointment

#### FOCUS ON WRITING Ex. 2, p. 51

I went to see Hunted this weekend, and I thought it was awful! I felt like I wasted two hours and twelve dollars.

First of all, the plot sounds exciting, but it is actually very predictable. Carla, an ordinary woman - a high school teacher - is being chased by a group of bad men. We don't know who they are, and we don't know why they are chasing her. As the movie goes

7. adapt

on, you find out more and more about Carla's past, and how she is connected to these men. Of course, it turns out that she isn't so ordinary after all. By the time the movie reveals the "surprise," it isn't much of a surprise <u>I knew exactly what was going to</u> happen in the end.

The star of the movie is Pia Andrade, an actress I usually like a lot. Her acting in this movie is good she is the reason I gave the movie two stars instead of just one. <u>While the role she plays in this movie</u> <u>is very silly, Andrade makes the character realistic</u>. Still, with her talent, I think she should play more serious roles.

This is the second movie from director Oscar Lombard. I loved his first movie, *Awaken*. It had an interesting, surprising plot, and the acting was great. In contrast, *Hunted* is a real disappointment. Let's hope his next movie is better!

#### BEFORE YOU WRITE Ex. 1B, p. 74

running and meditation

#### FOCUS ON WRITING Ex. 2A, p. 74

What's my secret to staying healthy and in shape? Well, I actually have two secrets: running and meditation.

Everyone knows that exercising regularly is a great way to get and stay healthy. And running is a great exercise <u>because</u> it strengthens your whole body. You use all the muscles in your body when you run, <u>so</u> it works out your legs, stomach, and your upper body. Running is also a great way to exercise <u>because</u> it's so easy to do! You can do it anywhere, anytime, and you don't even need to go to the gym! A lot of people think you need to do long, hard workouts. That's not true! All you need to do is do something active regularly. And <u>because</u> running is so easy to do, it's a great way to stay active regularly.

I also think it's really important to meditate every morning. <u>One effect of</u> meditation is that I feel calm even when work gets stressful. <u>Another effect is</u> that I can concentrate really well. I am able to stay focused on tasks for a long time. Finally, I believe that meditation <u>makes</u> me more creative. I can come up with new and different ideas <u>because</u> my mind is relaxed.

What are your favorite ways to stay healthy?

#### BEFORE YOU WRITE Ex. 1C, p. 86

Both Jim's friend Jim learns by reading tries to find • does not read instructions solutions written instructions before • also learns by • learns by watching asking for videos teaching help

#### FOCUS ON WRITING Ex. 2, p. 87

#### The Ways We Learn

People learn in many different ways. <u>Some</u> of us are really good at reading written instructions; <u>others</u> prefer to look at pictures. <u>Some</u> people learn by watching other people do something first, while <u>others</u> learn by doing things themselves.

In my case, I need time to read and concentrate before I learn something new. Then I like to teach it to someone else right away. In this way, I gain a deeper understanding of the new skill. For example, I recently learned how to use a new computer program. Then I taught a co-worker how to use the program. After I taught my co-worker, I felt like I really understood the program. I no longer needed to check the written instructions.

In contrast, I have a friend who *never* reads written instructions. Instead, she prefers to watch videos online. Once, she watched a video about how to fix her laptop computer, and then she changed all the hardware in her laptop - all without reading anything! She is really good at figuring things out on her own, and she will always try to find solutions before she asks for help. That's one thing we have in common.

How do you learn? I'd love to hear your stories.

#### (Sick!)

From: Diana Olivera To: susanr@gotmail.com Hi Susan.

I'm so sorry, but I have to cancel our lunch today. <u>Can't believe this</u>but I think I may be coming down with something.<u>I went out to eat at my</u> favorite restaurant last week, and guess what? The guy sitting at the table next to mine? [Totally sick!] He was coughing all over the place. I mean, why was he out in public when he was clearly sick?? Anyway, I woke up this morning feeling awful. My head is hurting and I have a bad cough. It looks like it might be the flu, and I'm pretty sure I got it from that guy. (Ugh, I'm so mad!)I'll have to miss work today. I don't want to spread it to other people.

I'll let you know as soon as I feel better. (Let's reschedule our lunch then!

## LESSON 5 Write about good advice

#### BEFORE YOU WRITE Ex. 1C, p. 122

#### FOCUS ON WRITING Ex. 2, p. 122

I once had a teacher who shared with me this quote from Albert Einstein: "A person who <u>never</u> <u>made a mistake never tried anything new</u>." I was only 12 years old when she told me this, but I have never forgotten it. It's definitely the best advice I've ever received.

Before getting that advice, I was sometimes afraid to try new things. I was <u>smart</u>, <u>curious</u>, <u>and creative</u>. However, I worried <u>that I would make a mistake</u>, or <u>that the result wouldn't be very good</u>. But this quote really made me think. Einstein was a brilliant man, so if *he* wasn't afraid to make mistakes, why should *I* be afraid?

<u>I loved computer games and apps</u>. So I started <u>playing</u> around with my computer and <u>trying</u> different things. And, yes, I made a lot of mistakes. Most of my ideas didn't work. But from each mistake, I learned something new. And eventually, I figured out how to create my own apps. It felt so amazing. I realized that it's really worth it <u>to keep</u> trying, <u>to keep</u> pushing, and not <u>to give up</u> just because of a few mistakes.

I truly believe that Einstein's quote made it possible for me to have more success in my life.
